PROFESSIONAL EXPERIENCE

WEBSOC AI | Senior Reactjs Developer *April 2024 – Present*

- Implemented modern optimization technique like Lazy loading, Code splitting, Assets Optimization, Network optimization, Build Optimization to decrease initial load time which improved the score of performance metrics .
- Built accessibility-first UI components by enforcing semantic HTML, ARIA roles, and keyboard navigation patterns across the application resulting in improved Lighthouse accessibility scores and inclusive user experience.
- Improved frontend observability by integrating logging and monitoring tools (e.g., Sentry, MS clarity) to track errors and performance metrics resulting in faster debugging, reduced production issues, and better user experience insights

HYNO TECHNOLOGIES | React.js Developer *Sep 2023 - Mar 2024*

- Implemented caching using Service Workers, enabling offline support and improving user experience through faster load times and reduced network dependency.
- Wrote unit tests using Jest and Enzyme, achieving ~90% code coverage and ensuring application reliability.
- Managed state using Redux increase scalability and maintainability.

WEBSOC AI | Frontend Developer *Aug 2019 - Sep 2023*

- Developed responsive and scalable user interfaces using ReactJS and Tailwind CSS, ensuring consistent performance across devices.
- Refactored existing codebase to improve readability, maintainability, and overall code quality.
- Enhanced code reusability and separation of concerns by implementing custom React hooks for logic abstraction.

TECHNICAL SKILLS

- **Frontend Technologies -** React.js , Nextjs, TypeScript, JavaScript (ES6+), HTML5, CSS3, JQuery, React Router, RESTful APIs, GraphQL, Git, Babel, THREE.js, React three fibre.
- **State Management Library -** Redux, Redux Toolkit, flux, MobX, Zustand, Context API, Recoil.
- **Testing Library -** Jest, React Testing Library, Mocha, Enzyme, Playwright, Cypress (***Unit , Integration, A/B Testing , E2E Testing***).
- **UI Technologies -** SCSS/SASS, LESS, Bootstrap, Tailwind CSS, Material-UI, shadcn, Chakra UI.
- **Backend Technologies -** Nodejs, Express.js, mongodb.
- **Rendering Patterns –** SSR (server side rendering), CSR (Client Side Rendering), SSG (Static Site Generation)
- **Bundlers -** Vite, Webpack, parcel.
- **Animation Technologies** GSAP , Framer Motion**.**
- **Others -** AWS (Basics), Agile and scrum methodology practices, Progressive web App (PWA) Implementation.

FRONTEND PROJECTS

ShopSense – Shopping e-commerce site **ShopSense**

Tech Stack: *Next.js , Mongodb Tailwind CSS.*

- Enabled offline access and PWA installability using Web App Manifest and Service Workers.
- Implemented **secure user authentication** with password hashing and JWT.
- Built **shopping cart and checkout flow** and developed **CRUD APIs** for product management.

ForgeFit – Gym Site **ForgeFit**

Tech Stack: *ReactJS, React Three Fibre, Framer-Motion, Vite.*

- Implemented **interactive 3D models and smooth motion animations** to boost engagement and visual appeal.
- Optimized performance with **Vite and efficient asset loading** for fast, responsive rendering across devices.
- Ensured **WCAG-compliant accessibility** with proper color contrast and keyboard-friendly components..

Project: 3D Product Showcase – portfolio **3DModel**

Tech Stack: *ReactJS, Three.js, Tailwind CSS, vite.*

- Integrated interactive 3D product models using Three.js.

EDUCATION

Bachelor Of Engineering in Mechanical | Amravati University **| GPA:** 8.82 *GRADUATION 2018*

Diploma | Maharashtra State Board Of Technical Education *2012-2015*
